Polo Game.

MAUI, May 20.—The captain of the ship Manga Reva, now at Kahului waiting for cargo of sugar, is having much trouble through the desertion of his sailors. He has lost four of them up to date and others have tried unsuccessfully to abandon the ship.

The Manga Reva arrived last Thursday from San Francisco and anchored outside, seemingly very near the reef. On Friday three sailors escaped by swimming ashore, while the fourth, almost drowned in the surf near the beach, was rescued by the ship's boat. He was taken back to the vessel, rolled on a barrel and finally revived.

On Wednesday the ship came to an inside anchorage and began to load sugar. Yesterday other sailors tried to get away. One in attempting to swim ashore was seen by the mate, who, stripping quickly, jumped into the water with a rope in his hand with which he lassoed the runaway and brought him back to the ship. Three other sailors, one of whom was the one nearly drowned a week ago, were found stowed away in the lighter hidden between bags of sugar.

The captain states that his crew of 27 men is the "toughest" he has ever seen, and he will have to be most vigilant if he wishes to retain enough jacktars to sail the vessel around the Horn to Delaware Breakwater.

LITERARY MEETING.
Last evening the May meeting of the Makawao Literary Society took place at the residence of Mr. and Mrs. W. S. Nicol and H. W. Baldwin. A large number of people were in attendance and the following delightful program of entertainment was rendered:

THE CHANGE OF LIFE

Intelligent Women Prepare
Dangers and Pain of This Critical Period
Avoided by the Use of Lydia E. Pinkham's Vegetable Compound.

How many women realize that the most critical period in a woman's existence is the change of life, and that the anxiety felt by women as this time draws near is not without reason?

If her system is in a deranged condition, or she is predisposed to apoplexy or congestion of any organ, it is at this time likely to become active and, with a host of nervous irritations, make life a burden.

At this time, also, cancers and tumors are more liable to begin their destructive work. Such warning symptoms as a sense of suffocation, hot flashes, dizziness, headache, dreading of impending evil, sounds in the ears, timidity, palpitation of the heart, sparks before the eyes, irregularities, constipation, variable appetite, weakness and inquietude are promptly heeded by intelligent women who are approaching the period of life when woman's great change may be expected.

Lydia E. Pinkham's Vegetable Compound is the world's greatest remedy for women at this trying period, and may be relied upon to overcome all distressing symptoms and carry them safely through to a healthy and happy old age.

Lydia E. Pinkham's Vegetable Compound invigorates and strengthens the female organism, and builds up the weakened nervous system as no other medicine can.

Mrs. A. E. G. Hyland, of Chester-town, Md., in a letter to Mrs. Pinkham, says:

Dear Mrs. Pinkham:—
"I had been suffering with falling of the womb for years and was passing through the change of life. My womb was badly swollen. I had a good deal of soreness, dizzy spells, headaches, and was very nervous. I wrote you for advice and commenced treatment with Lydia E. Pinkham's Vegetable Compound as you directed, and I am happy to say that all those distressing symptoms left me, and I have passed safely through the change of life a well woman."

For special advice regarding this important period women are invited to write to Mrs. Pinkham for advice. It is free and always helpful.

Vocal Solo.....

Rev. B. V. Bazata.

The bass solo by Mr. Bazata was especially appreciated. After the program a presentation was made by Mr. D. C. Lindsay of a purse of gold to Mr. D. D. Baldwin as a testimonial from the attendants of the Pala Foreign church showing their appreciation of his faithful service as church organist for many years past.

THE COUNTY CONVENTION.

Forty-nine delegates from Maui and Molokai, either in person or by proxy, will assemble at Wailuku courthouse at 10 o'clock this afternoon for the purpose of nominating candidates for county officials for the County of Maui. The hour of opening the convention was made late in order to accommodate the Hana delegations that are to arrive by the steamer Claudine. It is anticipated that an afternoon and evening session will complete all necessary business.

The political gossip of the hour has it that the four Republican candidates for sheriff are L. M. Baldwin, J. W. Kalua, S. E. Kellum, and W. G. Scott. T. B. Lyons, who has been nominated by the Democrats, has much political popularity and is a strong candidate for sheriff. However if Wm. White of Lahaina, the well known Home Rule politician, "makes a running," as it seems probable, the contest will be a three-cornered one and should prove favorable to the Republicans.

It is reported that the position of treasurer with its necessary \$15,000 bond is going begging. No one up to date has consented to run for the office.

MAUNAOLU SEMINARY.

Thursday afternoon a meeting of trustees of Maunaloa Seminary was held in the school building, Pala, H. P. Baldwin presiding. Miss Husner was appointed principal in place of Miss Snow, resigned. The resignation of one of the most able teachers, Mrs. Gossin, was accepted with regret. The summer term will end on June 13, on which day for the first time in the history of the school printed certificates signed by the president of trustees and the principal will be presented to each graduate. Five or six girls will receive these diplomas.

NOTES.

A new Mormon church recently erected at Peahi near the government school house was dedicated on Sunday last. There was quite a large attendance and a grand luau terminated the exercises of the occasion.

On the 12th the barkentine Amaranth arrived in Kapaemahu with coal. On the 16th Acting Dep. Collector G. S. Aiken of Kahului visited Lahaina for the purpose of inspecting the vessel.

Last Saturday afternoon a lively game of polo was played on Peahi grounds by the following teams: F. F. Baldwin, H. A. Baldwin, and C. C. Krumpholtz versus Fred Baldwin, G. S. Aiken, E. Peck and J. Thompson. The former team won by a goal or two.

Honolulu people are considering the feasibility of erecting a steamer laundry at Kahului.

On Wednesday the oil vessel Fullerton left Kahului for Santa Barbara. She unloaded 1500 bbl. of crude oil at Kahului.

Weather—Strong trades.

GEMS FROM THE
KAU WEEKLY

The Kau Weekly hereby invites any plantation owner or manager to state through its columns what the objections are if any they have to the government opening its lands tributary to plantations to actual settlement by American Citizens. It seems to us that it would be of advantage to all concerned. In the language of the sublime poet "Speak up or shut up."

Can any one in the District of Kau guess who this fits in every respect?

NOT THE CLIMATE.

Is it the climate that drives all the Japs away from this part of Kau? We first thought they went to California and we learn that they go to other plantations, an investigation shows that there is no lack of labor in other parts of this district. It must be climate because every one knows that the officials here are "loved dearly." You can assure yourself of this fact by hearing the pet names given them.

WANT HIGHER PAY.

We learn that the Hawaiians are about to demand one dollar a day. They say if they are the only ones that can put up with the awful rat that drives the Japs away that they ought to be well paid for it. Right you are. Demand the dollar a day and you will get it.

HAS A POET, TOO.

There are two men don't you know Who are slaves to a thing called "Poho"

When he has the itch They go out and scratch And say it is nice to be so.

Australia has now a federal patent law and applications for patents hereafter will have to be filed and dealt with at the central patent office, Rialto building, Melbourne. The law is to a great extent based on the existing British system, with the notable addition that the official staff, before issuing a patent, must make an examination to ascertain whether the invention described has been previously patented or a patent applied for in any of the states composing the federation. Patents will be granted for fourteen years and will be subject mainly to the usual conditions of British and Australian patents, with the exception that if one claim is found by a court to be invalid it shall not affect the validity of any other claim or of the patent so far as it relates to any valid claim.

SAYS WAR IS
AT AN END

Member of Japanese
Parliament Talks
of Situation.

"In my opinion the war is practically at an end now."

In those words Mr. T. Shirato Otuga, member of the Japanese Parliament and one of the budget committee of that body, expressed his views upon the present situation in Manchuria. Mr. Otuga is in Honolulu for his health, and will remain so long as the climate seems to agree with him. He was willing to talk, and evidently very proud of the achievements of his compatriots in arms against the Russians.

"Now you come at the most important thing," said Mr. Otuga, when asked about the peace terms that Japan would exact, "and the most difficult to answer. I think that Russia must pay a war indemnity in cash to remunerate Japan for the cost of the war in blood and treasure. If there is no precedent in Russian history for the payment of war indemnity, this is a good time to establish one."

"I think that Russia will be asked to concede Japan railway concessions in Manchuria and in Siberia. All fortresses and all war preparations must be destroyed, that Japan may not be menaced. Russia must surrender all her privileges on the Liaotung Peninsula. And Vladivostok must cease to be a naval base, and be made a free port."

"We do not care whether Russia acknowledges that Korea is within the sphere of Japan's influence or not. It is within the sphere of our influence, unalterably, and all the nations know it."

"The war, in my opinion, is practically at an end, and the time has come for Russia to sue for peace. Russian Cabinet ministers have expressed to members of the foreign press the view that the struggle is virtually ended. And it would be foolish for Russia to continue the struggle until Vladivostok and Harbin fall, as they are certain to fall if the war continues."

"No, I do not think that the coming of the Baltic squadron means a renewal of the war. Rojstvensky's object is something of a mystery, but he did not come out to fight. He knows that his ships are no match for our fleet. In my view, the purpose of the coming of the squadron is simply to complicate the situation, to harass commerce, to involve France and England, perhaps. And, in that view, his object may be to work for peace in the end."

SACRED VULTURE SHOT.

A specimen of the very rare "Pondicherry" or "Sacred vulture" of India and Africa was shot recently in South Africa. Its measurements were: From tip to tip of wings, 108 inches; from beak to tip of tail, 42 inches. The "sacred vulture," which grows to an immense size, has its head bare, neck covered with folds of skin of a pinkish hue and tremendously powerful beak and claws. It is described as very self-assertive, driving off all other birds from their prey. It builds enormous nests of sticks and leaves and lays only one egg a season.
